

The Fort Wayne Sentinel.

SATURDAY, JUNE 18, 1853.

For illegal advertisements sent to this Office for publication hereafter, must be accompanied by the sum of one dollar for each insertion.

For each insertion of \$1.00 per square for 3 insertions, we will charge about \$1.25 per foot of 100 words. Those sending advertisements can easily compute the cost by this rule.

To our Readers.

We have ordered a new and beautiful font of Type for the Sentinel, which will be here in time for the commencement of our New Volume in July. In ensuring this heavy outlay, we have been actuated by the desire to keep pace with the growth of our city, and to issue a paper in every way worthy the rising importance. Various other improvements are contemplated, and our readers may rest assured that we will spare no efforts to make the Sentinel deserving their support, and as good as its patronage will warrant. The better we are sustained, the better we shall be enabled to make our paper, and all who are in extending our circulation will eventually be repaid by the improvements which an extended patronage will enable us to make.

Will our readers sit us? There are few who could not, if they would, induce some neighbor to take the Sentinel, and our circulation might by this means be largely increased. As an additional inducement, we will furnish the Sentinel one year gratis, to all who procure us three new subscribers, with the subscription in advance; or eight copies, and one gratis to the person getting up the city, for \$12.00.

Who will embrace the offer and entitle himself to the Sentinel without charge?

Masonic Celebration, June 24th.

The invited Guests, and the members of the Fraternity, are requested to invite their wives, daughters, or female friends, to dine with them.

The Ladies and invited Guests will please form with the procession at the College Hall, and march under the direction of the Marshal, to the table, prepared in the Public Square.

By request of the Committee of Arrangements.

S. D. BAYLESS Co'n. Com.

Fort Wayne, June 7th, 1853

We are indebted to Hon. S. BRYANT for an abstract of the Report of the Superintendent of the Census.

The WHEAT Crop throughout this region is quite promising, and bids fair to yield an ample reward to the labor of the husbandman.

In the southern parts of this State and of Ohio, the crop is said to have committed sad ravages with the wheat, and a light crop is anticipated. In some parts of Illinois the same complaint is made.

Fourth of July.

The WEATHER.—For some days this week the weather was excessively hot. From Sunday to Wednesday the thermometer ranged from 96° to 98° in the shade, at noon. This is the hottest weather experienced here for many years so early in the season. On Thursday we were refreshed by a fine shower, since which the heat has been more moderate.

On Wednesday a man named Decker, working on the railroad in Lafayette street, died, in consequence of the heat, and from immoderately drinking too freely of cold water.

Railroad Stocks.—The stocks of some of our western railroads are quite in demand in New York. Michigan Central is quoted at \$185; Mich. Southern 140; Illinois Central 130; Cleveland, C. & St. Louis 120; Fort Wayne & Mississippi, 110; and the Fort Wayne & Chicago Railroads, will be as good or better than any of the above, when the road gets in operation. A good chance is open to make a speculation by investing in these stocks now, while they can be bought at par, and we would particularly recommend the Fort Wayne and Mississippi Railroad, as one which can scarcely fail to become one of the most profitable in the west. Now is the time to make a good investment.

Throw Pines to the Dogs.—Some miscreant has been poisoning the dogs in this city, and appears with fiendish malice to have selected the best and most valuable dogs as with which to exercise his malice. Poisoned meat has been thrown into the door yards, where good watch dogs were kept, and many have fallen victims who will be more deeply lamented by their owners than the destroyer could be by any one who saw his vicious propensity was known.

The Mayor of this city, in a notice in the Tribune, denies that any person has been authorised by the city authorities to destroy the dogs belonging to our citizens. It is the work of a vicious poisoner, and whether he is impelled to it by a vicious propensity to evil, or whether it is from a morbid taste of man's dogs which periodically relieves some weak minded persons, his conduct is unquestionable and villainous. By scattering the poison in the careless manner he has, in the very doorways of houses containing young children, he has wantonly endangered human life, as there has been at least a probability that some of his poison might have been eaten by children. If such a calamity happened he would have been morally guilty of murder. He is either a very weak or a very wicked man—one that is scarcely able to live in the world. Whether the penitentiary or the insane hospital would be the most suitable place for him, depends upon the reasons which actuate him in his nefarious course.

SCHOOL TAX.—Our citizens must bear in mind that a vote is to be taken To Day on the question, *Shall we tax in 50 cents on the \$100 valuation, and \$50 on the property for building school-houses in this city?*

A Family Group.—We saw an admirable picture in McCord's "A Day in the Life of a Family." The picture is a representation of a Hoosier family—Mr. Peter Petit, of this county, his wife, and sixteen children—eight boys and eight girls. Mr. Petit has been a resident of this county 18 years, has 16 thriving children, resorted from the babe in the manger up to the full grown man and woman, and has never lost one—a fact that speaks volumes for the healthiness of our country, and may help to account for its rapid increase of population. The patriarch is still full and vigorous, and may yet "do the State some service." We expect in a few years to see another edition of the family picture, with considerable additions.

Guide Boards.—It is a great convenience to travelers to find guide boards at the forks and crossings of the road, directing them the way he should go. See 19 of the Road Law, Rev. Code, p. 456, provides that: "Every supervisor shall erect and keep up, at the forks of every highway, and at every crossing of roads within his district, guide posts and boards, with proper inscriptions and devices thereon, the expense thereof to be paid out of the township treasury."

This service had better look to it as it ought to be. Su-servors had better look to it as they are liable to a penalty of \$10 for each neglect of duty.

Enlargement of the N. Y. Canal.—A bill has been passed by the N. Y. Legislature, now convened in extra session, providing for the enlargement of the Erie Canal. The enlargement is to be completed in four years, at the expense of ten millions of dollars—two and a half millions to be expended each year. The whole work is to be let to the lowest responsible bidder.

Fort Wayne & Southern Railroad.—By a letter from Louisville we learn that the committee appointed to examine the route for the southern extension of this road from Muncie through Newcastle, Greencastle, Vernon, &c., to Jeffersonville or New Albany, have met with a very favorable reception.

A large amount of stock will be taken along the line, and the route is said highly favorable. We look upon it as decidedly preferable to the circuitous route by Indianapolis and Indianapolis, originally con-

templated.

Col. Forney and the Union—Postmaster General Campbell, &c.

WASHINGTON, June 3, 1853.

Since my last I have been looking around to see what I could collect that would be of interest to your readers. It is dull here now very dull—e'en the few office seekers who are here, on account of the scorching influence of old Sol, have lost their natural energy and love of gossip, so that we have scarcely anything to give us from the hopeless state of our country.

A telegraphic dispatch in the Baltimore Sun, which the present call at the Falls of the Ohio, once sufficient, has become a mockery, and the calls upon the United States, not being favorably responded to, the citizens must put their own shoulders to the wheel first, and then repeat their call upon Hercules.

We publish to-day, an advertisement, setting forth that books are now opened at No. 40 West Fourth street, for subscription to the stock of opening a new canal at Jeffersonville, to which we invite attention. We believe the matter is pretty well understood in this community, having been thoroughly canvassed by the Chamber of Commerce; but we give below, a few rough facts and estimates for further consideration;

Estimated cost of Canal per W. J. Ball's report..... \$688,033 63

Add for the short Estimate and right of way..... 314,966 35

In round numbers..... \$1,000,000 00

ESTIMATED RECEIPTS.

Number of steamboats on the Ohio and Mississippi rivers, from E. D. Mansfield's report to Congress, June 30th, 1851, exclusive of revenue boats, 552. Average tonnage, 150,000; average load, 100,000.

If Col. Forney's editor of the Union, the Democracy, the Landowner, could repeat in confidence, knowing that an able steamer would hold the high and directed the course of the Nation's flag, of our great party.

This is much more to be done than the treasury manager, in which the appointments are made. Thus far, there has been comparatively speaking, but few changes made. This time four years ago 20,000 Democratic postmasters were decapitated by their federal superiors, notwithstanding the hypocritical cry of "no opposition." While Postmaster General Campbell has made scarcely an hundred removals. However, I have every reason to believe, it will all be made right in good time.

Judge Campbell, his federal opponents nothing, he has received more abuse from them than any man of this day. You would almost if you were here, at witnessing the movements of the numbers of Whigs who are applicants for offices under the Democratic administration. I saw a man yesterday who was nearing Scott's a few months ago with an hundred and twenty letters of recommendation for a clerkship in the Post Office department, and strange to say many of these were from persons who are looked upon as Democrats! Gen. Pierce has, I learn, in several cases, already been imposed upon, and probably positions, who have been the worse enemies of Democracy, while our most faithful men have been over-slaughtered. Too much cannot be exercised by the executive in making appointments. The best way to strengthen this party, is to make judicious selections.

IN THE OPINION of intelligent, responsible steamboat Captains, the above estimates are very much too small, and any one having any knowledge of the river trade, will know that a trip per annum average for all the boats, is much less number than they will make; but some boats never come into the Ohio at all, while of those which do, twelve trips is less than the average. It will be thought by some, that a large deduction should be made for the opposition of the present canal; but the allowance has been in that mail in the small number of passages allowed each boat.

The lecturer defended himself with great coolness, knocking down several of his assailants with a chair, and when deprived of that, with the pulpit bench, which he tore up for the purpose.

He was at length drawn from the pulpit by one of the assailants who got hold of one of his legs and pitched him over.

A further struggle ensued on the floor underneath, when the lecturer was finally rescued by his friends.

Father Gavazzi's Secretary was also badly hurt, and will probably die. Several ladies and gentlemen were also injured.

A party of soldiers was detached, and on arriving quelled the disturbance and cleared the house.

The mob went to the parliament House, and called for M. Brown, one of the members, the editor of the *Toronto Globe*, and threatened him with their vengeance for his obnoxious proceedings against Catholics. They then proceeded to the downtown.

A later dispatch says the Secretary will probably recover.

MONTREAL, JULY 11.

Alas! every hour records some victim, whose curse has been found by friends, who are still in the shade, at noon. This is the hottest weather experienced here for many years so early in the season. On Thursday we were refreshed by a fine shower, since which the heat has been more moderate.

On Wednesday a man named Decker, working on the railroad in Lafayette street, died, in consequence of the heat, and from immoderately drinking too freely of cold water.

RATES ADOTTED BY THE SUPREME COURT.—We have been furnished by Albert G. Porter, Esq., with the following rules adopted by the Supreme Court.

1. Application for admission to the Bar will be sworn as Attorneys upon oath, that they are virtuous and of good moral character.

2. No subscription of a cause will be permitted without a brief on behalf of the party submitting it; and after the present term only printed briefs will be received.

3. The pages and lines upon the pages of transcripts, must be numbered before the cause is submitted; and the manuscript may be referred to in the briefs by page and line.

4. Attorneys upon opposite sides, in each cause, will be required, upon request, to interchange briefs.

5. Papers not made in some case of the briefs, by counsel, will be considered as waived in the cause in which the briefs are filed, and may be read by the court accordingly.

6. The volume containing any case cited in a brief, must be placed within the reach of the court; or the opinion of the cause, or such part of it as is referred to, must be accurately copied, with the statements of the facts on which it is based, and so much of the context as forms a qualification or exception to it.

7. In every brief of exceptions, purporting to set out the evidence up to that time, a general overruling of the words "was all the evidence given in the cause," are to be regarded as technical, and indispensable to repeat the presumption of other evidence.

It is ordered that this rule operate on all causes tried in the Circuit Courts and Courts of Common Pleas after June 1st, 1853; *State-jour.*

8. The following is the only description of the country till on the New Haven Bank. It is from Dyer's *dictor*, and what Dyer says, you may depend upon.

Vig. Church Street and other buildings with stone. The shade of large letters—City Bank of New Haven, and heavy and lack that evenness of appearance which the genius of the letter. The letter H. in Haven is more fully opening the shading likewise extends above the heavy stroke of right hand part of the letter H which should not—the large heavy and which touches the left hand top of H. whilst in genuine, it is sixteenth of an inch above it, the fine hair stroke running up the center of H. on the good note connects with the flourish on the top of the left side of H. whilst on the good note it connects with the dark shade from the right side of the letter. Signatures excellent, and have deceived the best judges, the work is not quite as good as genuine, but the example of our countrymen, and to found a good example of our countrymen in this case for the part, and to restore it to the original.

9. April 30, 1853.

S C R O F U L A.

MRS. NANCY M. PARKER, corroborated by Dr. A. C. Huestis, Esq., has been so badly afflicted with Scrofula for the last seven years, that most of the time I have been unable to attend to any kind of business, and much of the time unable to walk; and at the end of the bed, and, as I have now nearly lost the use of my limbs, my physicians, our country affords. I occasionally got some relief, but no cure, and continued to grow worse, until Dr. Foot recommended me to try the PETROLEUM, or ROCK OIL, as everything else had failed. I did so, without any fault, but, as you can see, I have now got the surface at once, and I am once again to grow better, and by using seven bottles I have got a cure worth of thousands of dollars."

Every vestige of this dreadful disease, in its various forms, has been removed by the Rock Oil, Natural Rock Oil, at least cost or inconvenience to the patient, than by any other remedy. Price 50 cents. Get a circular with directions from the Druggist.

THE "GREAT"

Indiana Land Agency

THE undersigned has been appointed an agent to sell all the lands in Northern Indiana owned by the **Kingston and Shadelby Railroad Company**.

This company is successfully operating on the H&G pressure system on their road, they have resolved to put their lands on the **Low**; and have authorized us to make at two dollars per acre, on five years credit, thus giving every one a rare chance to own a farm.

Emigrants can be accommodated with four or five sections in one locality, as desired.

The lands are well adapted to large scale

agriculture, and are to be had at a price which is giving better bargains, and more of them, than is generally known; as he is entirely too modest to put himself, and is not disposed to pay any one to do it for him.

F. RANDALL
